Flaming Samurai (Halloween event boss)

> Stats and drops on this page are checked against the game code (November 2026). Screenshots still to come.

The **Flaming Samurai** is the Halloween event boss. He comes back when the Halloween event runs, together with the door hunt and the **Halloween Elemental**. The Halloween 2026 event ended on 7 November 2026, so he does not spawn right now. He returns with the next Halloween event: watch Discord #updates or ask staff for when.

Stats

Stat	Value
Level	666
HP	5,000,000,000
Max hit	55
Attack	Ranged only (an ice ball he can throw from far away)
Timed fight	Once he is fighting, he counts down "Self Destruct in … seconds!" from 60. At 0 he blows himself up and dies.

How to find him (Trick-or-Treat)

1. Every 30 minutes, doors appear in a random city: Ardougne, Lumbridge, Draynor, Falador or Varrock.
2. Type `::trickortreat` to join the hunt.
3. Knock on doors to collect **Halloween Candy** and find the door hiding the Flaming Samurai.
4. Once he is found, the other doors disappear and everyone can teleport straight to the fight with `::samurai`.

Rewards

The top 100 damage dealers each get:

Reward	Chance
30,000 to 60,001 1B Tickets	Always
Halloween Box or Halloween Shard Pack	1 in 7
A random Krampus piece	1 in 51

- Mini Flaming Samurai pet: get loot from the Flaming Samurai 50 times to unlock it (each time you are in the top 100 damage dealers counts once; Death Note kills don't count). It is an untradeable cosmetic pet.
- Type `::hweenhint` to see the current event and your pet progress.
- Candy from the doors feeds your Halloween Elemental (see below).

Halloween Elemental

Only while the Halloween event is running. Claim it with `::elemental`. Keep it summoned, or carry it in a Pet Bag, to earn Halloween Candy from eligible NPC kills, raid completions and Trick-or-Treating.

- Right-click the Elemental and choose **Feed All** to feed it all your candy at once (you need inventory space for the rewards at level 100).
- Your first level-100 completion guarantees an **Uncharged Halloween Lantern** (if you haven't earned one before). The Elemental then goes back to level 1 and gives another reward after 100 more candies.
- Possible rewards: Halloween Boxes, Halloween Shard Packs, Wyrm (Halloween Edition) pieces, Halloween Scythe, Killer Chucky pet and the Ultra Pumpkin.
- No candy in 2026 from: Naruto, Goku, Gravewalker, Soulreaver, Necromancer, Haunted Halberd, raid NPCs and Death Note kills.

Double Candy events

Staff host one-hour Double Candy events that double the candy you get from doors, eligible combat and raid completions.
