Nulgath

Nulgath is the magic boss of the Ultra tier, the last of the **12 bosses**.

Level is the number over the boss's head. HP is the number on its health bar. The teleport menu shows a different number; ask staff which is right.

Nulgath	
	
Level	420
HP	600,000
Tier & style	Ultra · Magic
Where	Teleport menu, Bosses tab: "Nulgath (Magic Ultra)". The teleport always puts you in your own instance with one Nulgath.
To enter	Nothing needed to teleport. **It drops nothing until you have killed Shadowlord once.**
Drops	Nulgath Hood, Nulgath Robe Top, Nulgath Robe Legs

Before you go

- You can teleport here without any kill. But **Nulgath drops nothing at all until you have killed Shadowlord once.**
- Until you have killed Shadowlord, the game tells you it is "highly recommended" to get all the gear from the High bosses first.
- Best gear and how long a kill takes: ask staff.

The fight

- Nulgath attacks with magic.
- If you fight it with melee, 1 in 4 of its attacks makes it jump to another spot, hit you with magic and freeze you.
- When it is below half its HP, it sometimes heals itself.
- It attacks you first (it is aggressive).
- Every kill gives 1 boss point.

Drops

Only after you have killed Shadowlord once. Odds are per kill at 0 drop rate (DR); a higher DR makes them better.

Item	Amount	Chance (0 DR)
Nulgath Hood	1	1 in 300
Nulgath Robe Top	1	1 in 300
Nulgath Robe Legs	1	1 in 300

Nulgath drops nothing else: no box and no bones.

Boss instance

There is no Nulgath token. The teleport always gives you your own instance, so you don't need one.

Next: **Titans**. To reach them you need 1 Shadowlord kill.

Pictures

Drop screenshots from the old wiki; the list above is from the game code.

Facts checked against the game code (November 2026). Anything marked "ask staff" isn't settled yet.
